the millennium development goals set by the united nations were deliberately  
ambitious and they've been the subject of much debate now with the 2015  
target date for many of the goals having passed it's time to assess the goals  
and attempt to determine whether they were effective gathering leading  
scholars from a range of backgrounds and regions this book offers an in  
depth exploration of that question with the aim of better understanding the  
effects of the millennium development goals and learning from them for  
future policy decisions

the report health and the millennium development goals presents data on  
progress on the health goals and targets and looks beyond the numbers to  
analyze why improvements in health have been slow and to suggest what

must be done to change this the report points to weak and inequitable health systems as a key obstacle including particularly a crisis in health personnel and the urgent need for sustainable health financing building up and strengthening health systems is vital if more progress is to be made towards the millennium development goals mdgs the world health organization who said in a new report unless urgent investments are made in health systems current rates of progress will not be sufficient to meet most of the goals key recommendations of health in the millennium development goals to strengthen health systems and ensure they are equitable to ensure that health is prioritized within overall development and economic policies to develop health strategies that respond to the diverse and evolving needs of countries to mobilize needed resources for health in poor countries and to improve the quality of health data

as the 15 year millennium development goals approach their conclusion we can now measure their larger successes and failures in more than snapshot fashion and we can begin to consider how best to shape the international development agenda for the coming decades based on what we have learned but the performance and outlook for the mdgs can neither be reduced to the sum of its eight goals nor be divorced from international dynamics the hard interests of states and other actors and the global dynamics that impact on both for that reason this volume balances contextual analysis the role of formative and constraining forces the importance of normative considerations and illuminating case studies to deliver a study of the mdgs which has depth and nuance as well as breadth poised between judging the recent performance and the future promise of the mdgs this book is substantial provocative and timely this book was published as a special issue of third world quarterly

as the millennium development goals mdgs pass their 2015 deadline and the international community begins to discuss the future of un development policy poverty and the millennium development goals brings together leading economists from both the global north and south to provide a much needed critique of the prevailing development agenda by examining current development efforts goals and policies it exposes the structurally flawed and misleading measurements of poverty and hunger on which these efforts have been based and which have led official sources to routinely underestimate the scale of world poverty even as the global distribution of wealth becomes ever more imbalanced

the millennium development goals accepted by the un in 2000 are along with the targets set by the oecd in 1996 the subject of this expertly written book is development achievable in the time frames given how useful were the goals in the first place how far have we come in solving the aching problems of the developing world these questions and more are asked and answered in this impressive collection featuring an array of respected contributors and a preface from mark malloch brown of the undp will be required reading among

development economists and those interested in development studies more generally perhaps more importantly the lessons learned from this book shall need to be understood and acted upon by policy makers at both national and international levels

this volume sets out to disentangle the debate about the millennium development goals in theory and practice

prior to the 2016 sustainable development goals the united nations un had eight global goals set out to all 191 un member states at that time and at least 22 international organizations seven out of the eight united national millennium development goals are social goals the attainment of such goals would require a substantial proportion of public sector expenditure without a robust rate of economic growth whatever is achieved cannot be sustainable developmental state and millennium development goals argues that this is the main reason why some of the largest developing countries fell short in achieving the goals

this book provides analytical insights into if and how the targets adopted by the international community are likely to be achieved a key feature of the analysis is the recognition that most of the mdg targets are endogenously related these inter dependencies are crucial not only in analysing the mdgs but also devising strategies

this publication contains selected papers from the 6th annual european conference held in brussels belgium in may 2004 which brought together 400 scholars and policymakers from 70 countries involved in international development issues the conference discussions focused on the progress being made towards the millennium development goals including examining four key aspects that link developed and developing countries relating to flows of people capital aid and trade

this book presents a collection of chapters that examine various dimensions of development between 2000 and 2015 the millennium development goals

mdgs remained the overarching development framework that governed the international development community after a decade and half of commitment to the mdgs the framework is widely considered a success although progress reported across countries has been uneven the new overarching international development framework may not be successful or present the best opportunities for the desired global change without a better understanding of factors that contributed the most or the least to the attainment of the mdgs the chapters presented in this book provide discussions and insights into understanding these factors better they represent a collection of scholarship that address some of the important questions in international development they adopt a wide range of research methods to provide insight into what works and what does not in promoting the stipulated development goals
